

VORANAI - THE FUTURE OF YOUR DATA

We make your data usable.

Save manual effort and costs with our low-risk 4-step plan with a
50% money-back guarantee.

What distinguishes our approach

No buzzwords

A clearly structured and understandable process. We speak your language.

Seamless Integration

No cloud obligation. Your sensitive data remains safe within your systems.

Full Control

Quality results that you can steer.
Transparency instead of a black box.

ROI in under 12 months

~~No entry risk.~~ Free preliminary check beforehand. Decision only after calculation.

Security

Highest standards throughout the entire project course.

Our **4-Step** Plan

1

Potential Check

Non-binding assessment.
Identify use cases & calculate savings.

2

Data & KPIs

Connect sources, create definitions, and establish quality checks.

3

Pilot Effect

Implement the first lever and measure real impact against KPIs.

4

Rollout & Handover

Integration, stabilization of operations, and clean handover.

What you hold in your hands at the end

Real ROI & Documentation

A measurable project with real return, fully documented.

No loss of quality

You retain full control over the processes - no black box.

Highest data security

Security and absolute sovereignty over your sensitive data.

Get your free evaluation

In a friendly, no-obligation conversation, we will identify your potential together.

WHO WE ARE

Innovation from Ansbach

We are a young, determined team from the Ansbach area. **Focus on AI solutions** for medium-sized businesses (SMEs).

Research

Active participation in sustainable innovation.

Goal

Real added value for society & region.

People before margins

**Decisions not just based on numbers.
Collaboration based on respect, trust,
and integrity.**

*We make business relationships less transactional again,
but deeply human.*
